

SCHEDA TECNICA
CD01- GEBFOAM D500 cleaner for polyurethane foam SPRAY 500mL

 EN
 rev. 03/2023
 p. 1/2

Description

CD01 is a dissolver for cleaning and removing polyurethane foam from all kind of foam guns, working tools and from all surfaces. It facilitates the applying of each kind of foam enabling the easy cleaning at the end of job, avoiding the misfiring and the closing of guns nozzles.

Preparation

Screw the spray on gun body avoiding to close it too hard, then dispense at short intervals clearing the conducts, which will result free from any kind of foam residual. In order to clean the work instruments, such as scrapers, spatulas, putty knives, trowels, cutters, etc., please assemble the dispenser given and spray at short distance on the parts to be dissolved using a piece of paper, clothes, etc.

Properties

- It doesn't contain any acid, corrosive or toxic compound.
- It doesn't contain any halogenated, chlorinate and aromatic solvents.
- It dries very quickly without leaving any residual.
- Universal, it can be used with all types of PU guns on commerce.
- It doesn't contain any compound which can be harmful for stratospheric ozone (DL549/93)

Packaging

SPRAY 500ml, 12pcs in each box

Storage

In its original packaging, in a dry place away from direct light, in a cool environment at temperatures between +5 °C and +25 °C, the product has a shelf life of 18 months. Keep cylinders upright.

Disposal

Dispose of the product and its containers in a hazardous or special waste collection point.

Technical characteristics

(measured at +20 °C temperature and with 50% relative humidity)

Appearance	Liquid (Ref. Aerosol Base)
Color	Colorless
Odor	Typical
Density at 15°C	0.701 Kg/m ³
Flash Point	<62°C
KB number	93-96
