

Site internet accès www.jidop.com

L'adresse www.jidop.com permet d'arriver directement sur la page relative aux DOP. La DOP est disponible dans les différentes langues réglementaires grâce à un menu déroulant.

The screenshot shows the JACKON website interface. At the top, there is the JACKON logo and a service contact number: SERVICE: +49 (0) 5204 - 99550. A search bar is located to the right of the contact number. Below the header, there are four navigation tabs: JACKOBOARD (Construction boards and shower elements), JACKODUR (Thermal insulation for structural use), JACKODUR (XPS insulation materials for industrial applications), and About JACKON (Company, Services & News). A large image of a truck loaded with insulation panels is displayed below the navigation tabs. The breadcrumb trail reads: Home / About JACKON / Services / DOP. On the left side, there is a sidebar menu with sections: About JACKON (Company, Services & News), About JACKON Insulation, Sustainability, Services (Download, Installation instructions, DOP, Technical specifications, Authorisations/test certificates, Safety data sheets, ISO-Certificate), News, and Contact. The main content area is titled "DOP" and contains a search section with the text "Please enter the eight-character-code, e.g.: AA12345A. Where can I find the code?". A search input field contains the code "AF00656B" and an "Enter" button. Below the search section, there is a "Download" section with the text "Please select your language:" and a dropdown menu currently set to "French". At the bottom of the main content area, there is a link to "COMMISSION DELEGATED REGULATION (EU) No 157/2014 of 30 October 2013 on the conditions for making a declaration of performance on construction products available on a website."
